BENEFITS OF SCRIP

Scrip raises money for Holy Family School and reduces tuition for families! Purchasing scrip is buying gift cards to area merchants at face value. The school receives a percentage of the purchase price, as determined by the merchant. For example, Copps offers 3% profit on a \$25 gift card whereas Olive Garden offers 9% profit on a \$25 gift card, just to name a few. (The percentages are available online.)

As a benefit to a school family, 25% of the profit can be directly applied to their child's tuition. For example, if a \$100 gift card is purchased and the merchant offers a 4% discount, the school would get \$3.00 and the school family would get \$1.00. This may not sound like much, but it adds up when purchasing scrip on a regular basis.

The school can make a substantial amount of money when all school families participate. For the 2008-2009 school year, the school received over \$13,000 profit with only a third of the families participating. Imagine if all families participated! **When every family purchases scrip, everyone wins...the school and the family!**
